The Walgreens Community Pharmacy Residency program is a postgraduate training opportunity for pharmacists to enhance their skill set in a community pharmacy setting. The residency is academically affiliated and financially supported in part by the Sullivan University College of Pharmacy and Health Sciences. The majority of the residency experience will be located in Louisville, Kentucky and southern Indiana at Walgreens pharmacies. Participants will have direct influence on patient outcomes with patient counselling, immunizations, disease state management, community events and Medication Therapy Management. There will be additional experiences at our speciality pharmacy in Louisville.

The pharmacist will complete a teaching certificate program and will assist in teaching opportunities and experiences for the Sullivan University College of Pharmacy and Health Sciences. This program has received full accreditation from the American Society of Health-System Pharmacists (ASHP) and the American Pharmacists Association (APhA).

Requirements and Qualifications
Candidates should have obtained a Doctorate of Pharmacy degree from an accredited college of pharmacy in the U.S. Those applying should be eligible for licensure in the Commonwealth of Kentucky and the state of Indiana within 60 days of the start of the residency program.

Candidate should submit the following for consideration:
+ Curriculum vitae
+ Three (3) letters of recommendation
+ Official university transcripts
+ Letter of intent
+ Completed employment application from www.walgreens.jobs

All completed materials should be submitted to PhORCAS by the first Friday in January for candidates to be considered for the program. Candidates may receive invitation for an on-site interview.

Residency Benefits
+ Competitive stipend
+ Comprehensive medical plan
+ 10 days vacation & holidays
+ Travel allowance for pharmacy-related conferences
+ Clinical assistant professor role with Sullivan University College of Pharmacy and Health Sciences

Practice Experiences
The residency will provide goal-oriented practice environments through required rotations in the following:
• Engage in patient care services at local Specialty site
• Develop collaborative programs to improve patient adherence and outcomes
• Perform Medication Therapy Management
• Assist in delivery of complex HIV/AIDS medication education
• Provide patient counseling
• Evaluate the sustainability of new patient care programs
• Enhance existing patient care programs
• Administer immunizations
• Complete a teaching certificate program
• Serve as a preceptor and instructor to pharmacy students
• Design a practice-based residency project and present residency project findings at a professional conference
• Perform patient centered dispensing
• Participate in community service events
