Program Description

The Sullivan University College of Pharmacy and Health Sciences (SU COPHS) is proud to offer a PGY1 Residency affiliated with the Center for Health & Wellness and St. Matthews Community Pharmacy. The position at St. Matthews Community Pharmacy focuses on optimal patient-centered care within an independent community practice setting and will accept one resident per year. The resident will gain clinical experience in hormone replacement therapy, non-sterile compounding, specialty pharmacy, and medication therapy management through patient concierge programs. In addition to these experiences, the resident will rotate through various ambulatory care settings throughout the year and earn a teaching certificate through Sullivan University College of Pharmacy and Health Sciences. The residency program is accredited by the American Society of Health-System Pharmacists.
Candidates should obtain a doctorate of pharmacy degree from an accredited college of pharmacy in the United States. Those applying should be eligible for licensure in the Commonwealth of Kentucky.

Required Activities
+ Yearlong longitudinal rotation at St. Matthews Community Pharmacy
+ Quarterly Rotations
  • University Hospital
  - Adult Internal Medicine Clinic
  - Hosparus/palliative Care
  • Family Health Center
  - Ambulatory Care Clinic
